**NHS Graduate Management Scheme
Project Manager**

NHS Graduate Management Scheme Project manager recruitment pack

If you want to make a difference in Yorkshire and the Humber – and beyond – you have come to the right place. We need determined and passionate people to work with us to deliver our wide range of programmes. We want people who look at our values and think, yes... that's just where I want to be!

We use our skills, knowledge, networks, and relationships to understand the healthcare system and patient needs locally and regionally. We develop projects, programmes and initiatives that reflect the diversity of our local population and its healthcare challenges.

If you are looking for a flexi-placement working on delivery-driven projects that can really make a difference to patients and systems, then we want to hear from you. We have an array of exciting programmes that you could be involved in.

Below is just a taster of the kind of things currently going on and projects you could be involved in as a Graduate Management Training Scheme Project Manager (**Note- The exact project for the placement will need to be agreed closer to the time depending on current priorities**):

- **The Workforce Challenge Hub:** A collaborative initiative between NHS England North East & Yorkshire (NEY) and Health Innovation Yorkshire & Humber aiming to support workforce transformation across the region with innovative approaches.
- **CVD:** Supporting improvements in lipid management and optimisation across three ICBs (West Yorkshire, Humber & North Yorkshire, South Yorkshire) as well as heart failure.
- **DCEO Office:** Supporting exploration of how we operationalise strategy, reflecting on our workstream development and considering how a strategy could have supported delivery.

You will be joining a committed and high performing team that focuses on patient outcomes and supporting the people of Yorkshire and the Humber. We are committed to creating and sustaining a positive and inclusive working environment for all our employees to ensure our work and our workforce represents the communities we serve.

Skills required

You will need to be adaptable, flexible and willing to embrace ambiguity. You will need excellent communication and relationship building skills, the ability to deliver at pace and project management skills. You'll also bring with you a positive, professional mindset and a 'can-do' attitude.

Support during your placement

Trainees will be given the following throughout the duration of their placement with us:

- Project induction
- A flexi-placement manager who will act as a point of contact and support the trainee throughout the placement & complete the Flexi-Placement feedback form
- Regular meetings with your line manager (project specific) to ensure that the placement is meeting the agreed objectives
- Coffee and chat with GMTS Alumni and CEO Richard Stubbs

Flexi Placement Testimonial

'I completed my 8 week flexi placement at HIYAH from October-December 2023 whilst on the Health Analysis GMTS stream. My flexi placement here was invaluable and provided me with so many skills in my short time there. I worked on two main projects – an analytical Polypharmacy project and a research-based Virtual Wards project. Completing these allowed me to continue to develop my analytical skills but also improve my project management skills. I learned so many new techniques and methods for managing projects that I have now brought forward into my final placement. The culture of the organisation is really reflected in the work and the staff, and everyone I worked with provided me with such a high level of support which made the whole experience even better. I thoroughly enjoyed my flexi placement at HIYAH and would highly recommend here for anyone looking for a flexi whilst on the GMTS Scheme!' **Flexi Placement Testimonial – Rebekah Taylor**

Our corporate mission, vision, ambition and objectives

Mission

Transform lives through innovation

Vision

To improve the health and prosperity of our region by unlocking the potential of new ideas

Ambition

“Within the next two years, evolve Health Innovation Yorkshire & Humber into a sustainable position as a trusted and valued partner delivering spread of innovation, quality improvement and economic growth locally, nationally and internationally in partnership with commissioners, clients, patients and the public”

Our Values

Stronger Together

We're confident in the results we can achieve when we're united with our colleagues, stakeholders and partners

Always Learning

Every day's a school day. We're constantly searching for ways to excel and work tirelessly to build our expertise

People People

We love catching up for a cuppa and a natter but, more than that, we're curious about what makes people tick

Energetic Pioneers

We find new things and ideas that can make a difference to the health of our region. This is what gets us out of bed in the morning

Health Innovation Yorkshire & Humber Strategic Aims and Objectives

Strengthening our foundations
Investment in our future starts at our heart. By continuing to invest in, and develop our people's skills and leadership, we will be equipped for further growth.

Enhance our role and reputation
We hold a unique role as trusted thought leaders with global reach. We'll use this position to drive lasting change and improve life outcomes by empowering our communities.

Be fit for the future
We will ensure our ways of working are innovative, agile, and continually challenge the status quo. We will equip ourselves to better identify and respond to societal challenges of the future.

Foster connections
Our continued commitment to collaboration will strengthen strategic partnerships for the benefit of our population. We will ensure visibility of our work and its impact to foster advocacy and grow new business.

Grow our region
We will lead the way in promoting Yorkshire and the Humber and its assets to create a thriving, globally-connected innovation ecosystem. We commit to growing and diversifying our role to accelerate economic growth and prosperity, recognising our own success contributes to the region's success.
